

RMH CENTRAL

STREAMLINING MULTI-STORE RETAIL MANAGEMENT WITH A SYSTEM BUILT FOR THE INDUSTRY

Multi-unit retail chains need a fully-integrated enterprise solution to effectively run business operations. With Retail Management Hero (RMH) Central, managing and configuring multi-unit operations has never been easier.

All of a retail chain's valuable enterprise data can be managed from one, centralized system, ensuring that not only are data transfers fast, accurate, and secure, but the insights gleaned from the data provide the visibility required to make better business decisions. Best of all, RMH Central utilizes the latest network communication technology.
